If you are directly quoting from a work, you will need to include the author, year of publication, and the page number for the reference (preceded by “p.”).

A work by Two or Three Authors: Name the authors in the signal phrase or in the parentheses each time you cite the work. Use the word “and” between the last two authors’ names within the text and in the parentheses. Four or more Authors: Only use the first author’s last name followed by “et al.” in the signal phrase or in parentheses. If you have authors with the same last name, to prevent confusion, use first initials with the last names. Use the lower-case letters with the year in the in-text citation.
